

Change of housing geometry S2L-SMT

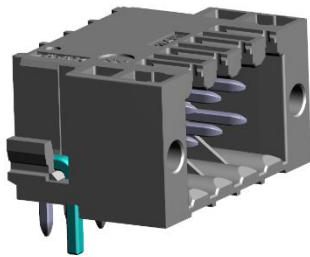

Dear Madam or Sir,

Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

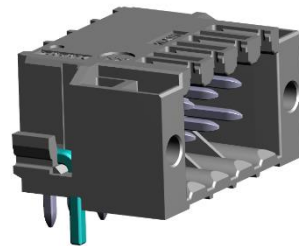

1. Technical change

Change of the housing geometry of all S2L-SMT flange versions.

S2L-SMT old geometry

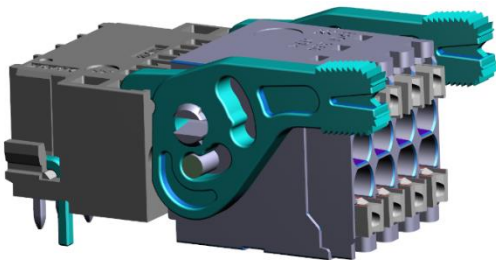

S2L-SMT new geometry

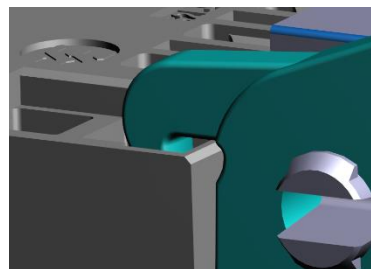

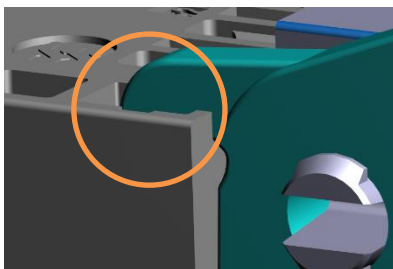

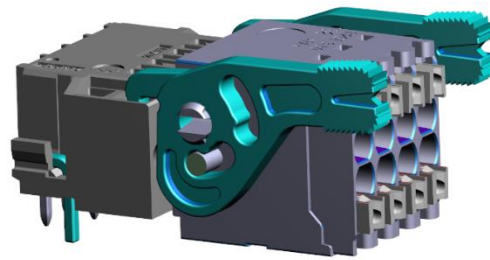

2. Reason for change

Due to that change, it is now possible to use B2L and B2CF with lock and release levers as counterpart. This was not possible with the old geometry, because of a collision of the levers with the S2L-SMT housing.
This change has no negative influence on electrical data acc. to the data sheet.

3. Availability

The changed housing will be used in the production from first of September 2020.
There will be no stock cleaning.
